## **Risk Profile**

- This is a conservative risk fund and ideal for clients who have a low risk appetite.
- The fund risk is limited due to the short term maturity profile of the assets.
- The fund is ideal during times of low stock market returns.

## **Who Should Invest?**

- People looking to save for short term goals e.g. for a holiday, a car or educational expenses.
- It is a good investment and alternative for individuals who hold saving accounts and/or are Sacco members.
- The recommended investment period is a minimum of 3 months.

## **Returns on the Money Market Fund**

- Interest is computed and earned daily, and credited to the client's account monthly for clients' access.
- It is recommended that the income be reinvested into the fund so as to maximize investments returns through compounding of the monthly interest and the principal amount.
